Summary

RIT computer science student seeking a Spring and/or Summer 2027 software engineering internship or co-op. Built production software, developer tools, AI systems, and consumer web products across two internships and independent projects.

Education

Rochester Institute of Technology — Rochester, NY
Bachelor of Science in Computer Science — Expected May 2028

Skills

Languages: Python, TypeScript, JavaScript, Java, C, C++, C#, SQL
Software and Tools: React, Angular, Next.js, Node.js, ASP.NET, Spring Boot, REST APIs, PostgreSQL, Git, Linux CLI, Docker, Jenkins CI/CD
AI: AI agents, LLM evaluation, Model Context Protocol (MCP), tool calling, RAG, PyTorch, scikit-learn, OpenAI API

Experience

Software Engineer Intern — Jan 2026 – Aug 2026
Paychex, AI Integrations — *Rochester, NY*

- Led an internal **AI developer platform** for enterprise engineering, integrating agents and MCP tooling; presented the platform to executives.
- Built an **LLM evaluation harness** for developer and Sales workflows to assess model reliability and usefulness.
- Reduced token usage by **55%** with a subagent architecture while improving internal agent workflow performance.

Student Researcher — Jan 2026 – May 2026
Rochester Institute of Technology — *Rochester, NY*

- Researched large language models and memory, studying how context and memory affect model behavior.
- Prototyped focused subagents that each retained a portion of conversation history, roughly **doubling effective working context** at the cost of higher token use.

Software Engineer Intern — Feb 2025 – Aug 2025
Real Wave Capital — *Remote*

- Built Angular and TypeScript interfaces for production AI agents supporting **100+ daily users** and **6,000+ weekly requests**.
- Reworked MCP tool calling and context strategy, cutting token spend by roughly **50%**; contributed to .NET backend work that improved endpoint response times by **25%**.

Projects

Chatio, LLM Benchmark and Chat App — Jun 2025 – Present
Next.js, Python, TypeScript — *chatio.dev*

- Built a ∼**500-prompt LLM benchmark** combining blind human review, model judging, and deterministic Python validation.
- Shipped a streaming chat interface with server-sent events, multi-step agent workflows, and tool calling.

Word Hunt — Sep 2024 – Dec 2024
Next.js, TypeScript, Figma — *wordhunt.org*

- Designed and launched a word game used by about **5,000 people**, with daily puzzles, friend challenges, and leaderboards; reached **250K+ search impressions** and **3.9K organic clicks**.

iMessages Chatbot Server — Nov 2025 – 2026
Python, asyncio, SQLite, AppleScript — *github.com/alextyhwang/iMessages-Chatbot-Server*

- Built a Python gateway for macOS Messages with SQLite conversation memory and AppleScript automation, supporting up to **20 concurrent stateful AI conversations**.

Leadership and Activities

Founder and President — Jan 2022 – Present
Bay Area Stem Academy — *San Jose, CA | bayareastemacademy.org*

- Founded a 501(c)(3) nonprofit that taught **660+ students** through **15+ free camps**, partnered with **5+ schools**, and delivered **$35,000+** in free STEM education.
- Led curriculum, workshops, outreach, and operations; donated **$5,000+** to partner organizations and teams.
- Led a **SanDisk** volunteer-day partnership that mobilized employees to build STEM kits for future programs.

Event Coordinator and Executive Board Member — Sep 2024 – Present
RIT Asian Culture Society — *Rochester, NY*

- Help lead a **200+ member** community and organize Night Market, a university-wide event with **600 attendees**.
