Summary

Computer science undergraduate seeking a software engineering internship/co-op for Spring and/or Summer 2027, with experience building Python-based AI systems, production agent workflows, evaluation infrastructure, and reliable full-stack products.

Education

Rochester Institute of Technology — Rochester, NY
Bachelor of Science in Computer Science — Expected May 2028

Skills

Languages and Fundamentals: Python, SQL, TypeScript, JavaScript, Java, C++, data structures, algorithms, debugging
Machine Learning and Data: PyTorch, TensorFlow, scikit-learn, Apache Spark, Hadoop/MapReduce, Flink, LLM evaluation
Platform and Systems: AWS, Docker, Kubernetes, REST, SQLite, Git, Linux CLI, Jenkins, CI/CD, scalability, model reliability
AI Systems: AI agents, multi-agent systems, MCP, tool calling, context optimization, OpenAI API, OpenRouter

Experience

Software Engineer Intern — Jan 2026 – Aug 2026
Paychex — *Rochester, NY*

- Led an internal AI developer platform integrating **AI agents and MCP tooling** into enterprise workflows; presented the platform to executives.
- Built a custom **LLM evaluation harness** for developer and Sales workflows to compare model behavior, reliability, and usefulness.
- Reduced token usage by **55%** with a subagent architecture while improving internal agent workflow performance.
- Maintained Jenkins **CI/CD pipelines** supporting automated build and deployment workflows.

Student Researcher — Jan 2026 – May 2026
Rochester Institute of Technology — *Rochester, NY*

- Conducted research on **large language models and memory**.
- Examined how memory and context shape long-term model behavior.

Software Engineer Intern — Feb 2025 – Aug 2025
Real Wave Capital — *Remote*

- Architected production Angular and TypeScript interfaces for autonomous AI agents serving **100+ daily users**; rewrote MCP tool-calling and context strategy to reduce token spend by roughly **50%**.
- Integrated OpenAI API and OpenRouter into .NET-backed agent services, improving endpoint response times by **25%** and scaling to **6,000+ weekly requests**.

Projects

Chatio LLM Benchmark and Chat — Jun 2025 – Present
Python, Next.js, TypeScript — *chatio.dev*

- Built a Python-backed evaluation platform using deterministic scripts, human review, and LLM-as-judge methods to assess leading models on roughly **500 private prompts** across five usability pillars.
- Developed streaming, multi-step agent workflows with tool calling plus real-time context and cost visibility for model reliability testing.

iMessages Chatbot Server — Nov 2025 – 2026
Python, asyncio, SQLite — *github.com/alextyhwang/iMessages-Chatbot-Server*

- Built a concurrent Python API gateway supporting up to **20 stateful AI conversations** with SQLite memory and semaphore-controlled model calls.
- Designed for under **2s internal latency** and 10–15 sustained messages per minute using asynchronous processing and controlled service communication.

Leadership and Activities

Founder and President — Jan 2022 – Present
Bay Area Stem Academy — *San Jose, CA | bayareastemacademy.org*

- Founded a 501(c)(3) nonprofit that taught **660+ students** through **15+ free camps**, partnered with **5+ schools**, and delivered **$35,000+** in free STEM education.

Event Coordinator and Executive Board Member — Sep 2024 – Present
RIT Asian Culture Society — *Rochester, NY*

- Co-lead a **200+ member** community and help organize Night Market, an annual university-wide event with **600 attendees**.
