Summary

Computer science undergraduate seeking a software engineering internship/co-op for Spring and/or Summer 2027, with experience in production software, concurrent Python systems, software integration, testing, debugging, documentation, and performance optimization.

Education

Rochester Institute of Technology — Rochester, NY
Bachelor of Science in Computer Science — Expected May 2028

Skills

Languages: C++, C, C#, Java, Python, SQL, TypeScript, JavaScript
Systems and Development: Linux CLI, Git, VS Code, debugging, software testing, documentation, data structures, algorithms, asyncio, SQLite, Hadoop/MapReduce, REST
Frameworks and Tools: .NET, ASP.NET, Angular, Node.js, PostgreSQL, Jenkins, CI/CD, Microsoft Office

Experience

Software Engineer Intern — Jan 2026 – Aug 2026
Paychex — *Rochester, NY*

- Led development of an internal AI developer platform on the **AI Integrations** team that integrated AI agents and MCP tooling into enterprise developer workflows; presented the platform to executives.
- Built a custom **software evaluation and test harness** for developer and Sales workflows to assess model reliability and usefulness.
- Reduced token usage by **55%** with a subagent architecture while improving internal agent workflow performance.
- Maintained **Jenkins CI/CD pipelines** supporting automated software builds and deployments.

Student Researcher — Jan 2026 – May 2026
Rochester Institute of Technology — *Rochester, NY*

- Conducted research on large language models and memory.
- Investigated how memory and context affect long-term model behavior and reliability.

Software Engineer Intern — Feb 2025 – Aug 2025
Real Wave Capital — *Remote*

- Architected production Angular and TypeScript interfaces supporting **100+ daily users**; rewrote tool-calling and context strategy to reduce token spend by roughly **50%**.
- Integrated APIs into .NET-backed workflows, improving endpoint response times by **25%** and supporting **6,000+ weekly requests**.

Projects

iMessages Chatbot Server — Nov 2025 – 2026
Python, asyncio, SQLite, AppleScript — *github.com/alextyhwang/iMessages-Chatbot-Server*

- Built a concurrent Python API gateway for macOS Messages supporting **15–20 stateful conversations** with SQLite persistence, debounce batching, semaphores, and sequential send locks.
- Automated constrained native-app interfaces and targeted under-2s internal latency with 10–15 sustained messages/minute.

Chatio LLM Benchmark — Jun 2025 – Present
Python, TypeScript, Next.js — *chatio.dev*

- Built a roughly **500-prompt** evaluation platform using blind human review, ensemble judging, and deterministic Python validation; documented methodology, ethics, and limitations in a public system card.

Leadership and Activities

Founder and President — Jan 2022 – Present
Bay Area Stem Academy — *San Jose, CA | bayareastemacademy.org*

- Founded a 501(c)(3) nonprofit that taught **660+ students** through **15+ free camps**, partnered with **5+ schools**, and provided **$35,000+** in free STEM education.
- Built and led robotics, machine learning, web development, 3D modeling, and engineering workshops; partnered with SanDisk on an employee volunteer day.

Event Coordinator and Executive Board Member — Sep 2024 – Present
RIT Asian Culture Society — *Rochester, NY*

- Co-lead a **200+ member** community and help organize Night Market, an annual university-wide event with **600 attendees**.
