Summary

Computer science undergraduate seeking a software engineering internship/co-op for Summer 2027 at TEL, with AI research experience in large language models and memory, Python-based evaluation, and translating AI ideas into working software.

Education

Rochester Institute of Technology — Rochester, NY
Bachelor of Science in Computer Science — Expected May 2028

Skills

Languages: Python, C/C++, TypeScript, JavaScript, Java, SQL
Software Development: Algorithmic thinking, data structures, algorithms, Git, Linux CLI, debugging, software testing
AI / Machine Learning: PyTorch, TensorFlow, scikit-learn, large language models, LLM evaluation, model reliability
AI Systems: AI agents, MCP, tool calling, RAG, prompt engineering, context engineering, subagent architectures
Engineering Practice: Reading and modifying existing codebases, technical writing, presentations, team collaboration

Experience

Software Engineer Intern — Jan 2026 – Aug 2026
Paychex — *Rochester, NY*

- Led development of an internal AI developer platform on the AI Integrations team, integrating **AI agents and MCP tooling** into enterprise workflows; presented the platform to executives.
- Built a custom **LLM evaluation harness** for developer and Sales workflows to compare model behavior, reliability, and usefulness.
- Reduced token usage by **55%** with a **subagent architecture** while improving internal agent workflow performance.

Student Researcher — Jan 2026 – May 2026
Rochester Institute of Technology — *Rochester, NY*

- Conducted research on **large language models and memory**.
- Examined how memory and context shape long-term model behavior.

Software Engineer Intern — Feb 2025 – Aug 2025
Real Wave Capital — *Remote*

- Built production Angular and TypeScript interfaces for autonomous AI agents serving **100+ daily users**; rewrote MCP tool-calling and context strategy to reduce token spend by roughly **50%**.
- Integrated OpenAI API and OpenRouter into .NET-backed agent services, improving endpoint response times by **25%** and scaling to **6,000+ weekly requests**.

Projects

Chatio LLM Benchmark and Chat — Jun 2025 – Present
Python, Next.js, TypeScript — *chatio.dev*

- Built a roughly **500-prompt** LLM benchmark evaluating real-world usefulness across five pillars with blind human review, ensemble LLM-as-judge scoring, and deterministic Python validation.
- Wrote a public technical system card documenting dataset design, evaluation methods, ethics, and limitations; evaluated **30 leading models** while keeping prompts private to reduce contamination.

iMessages Chatbot Server — Nov 2025 – 2026
Python, asyncio, SQLite — *github.com/alextyhwang/iMessages-Chatbot-Server*

- Built a concurrent Python API gateway supporting up to **20 stateful AI conversations** with SQLite memory and semaphore-controlled model calls.

Leadership and Activities

Founder and President — Jan 2022 – Present
Bay Area Stem Academy — *San Jose, CA | bayareastemacademy.org*

- Founded a 501(c)(3) nonprofit that taught **660+ students** through **15+ free camps**, partnered with **5+ schools**, and delivered **$35,000+** in free STEM education.

Event Coordinator and Executive Board Member — Sep 2024 – Present
RIT Asian Culture Society — *Rochester, NY*

- Co-lead a **200+ member** community and help organize Night Market, an annual university-wide event with **600 attendees**.
